WordPress

Heroku / Vercel / GFirebase

GitHub / Git

ABOUT ME

I have always enjoyed new electronics and software UI's. My enthusiasm drew me to take computer science courses for all 3 years of high school and keep it as a hobby of mine until my year off from the university. Now after a few years of honing my skills with numerous projects and performing web management at SmartTech Deals, I decided it was time to join a team as a software developer and create industry standard applications.

PROJECTS

- **Great Quotes** is a ReactJS App that allows visitors to add quotes and comments seamlessly. Created with React Redux, Toolkit, Custom Hooks, and Router. Deployed many of my projects using Vercel. [\[project\]](#)
- **Node Bookstore** is a multi-paged online store website created with Node.js and ExpressJS. Containing features such as authentication, password resets, payment services and security. Deployed with Heroku [\[project\]](#)
- **Reacts Meetups** is like Great Quotes but with Next.js framework. Visitors can create meetup events by uploading images and descriptions. It uses a MongoDB database backend. [\[project\]](#)
- **SmartTech Deals** is a Shopify online website for the SmartTech Deals business. Have also done web maintenance and product updates. [\[website\]](#)

Project links and technical descriptions are available on my [Portfolio](#), with more code descriptions and repositories available on [GitHub](#).

RELEVANT EXPERIENCE

September 2018 – Present | SmartTech Deals, Calgary, CA

Shop Assistant / Web Developer

- SmartTech is a local Calgary business that repairs and resells laptops, phones, and tablets at discounted prices.
- Aided in web development, design and maintenance of the online store, SmartTech Deals using Shopify.
- Accelerated business growth by using, SEO, tagging, Google analytics, Google search console, social media, and digital marketing.
- Performed many hardware upgrades, and swaps of certain laptop parts such as RAM, Screens, Bluetooth parts and other components for laptops of different manufacturers.
- For a period of 3-4 months, I had to solely manage the store dealing with customer support and sales while servicing the inventory. Faced certain adverse situations with customers which required strong communication skills.
